Forecast for Tuesday 16 Feb 2021

Weather: Outbreaks of rain or summit snow at first but becoming mostly dry by afternoon with some bright or sunny intervals. A few showers, these of snow above 1000m lowering 800m in the afternoon and evening. Still enough wind to blow existing lying snow on the upper slopes and bring a severe chill.

Chance of cloud free mountain/hill tops above 800m: 10% at first in morning rising to 50% by afternoon.

Visibility: Occasionally poor at first due to rain and summit snow then mostly good away from cloud and showers. Briefly poor in showers and local reductions at height where wind lifts lying snow. Cloud extensive above 600m at first in morning with patches to 450m, becoming more broken and generally lifting to 750-900m in the afternoon.
